TERMS AND INFORMATION

ALL PRICES SUBJECT TO CHANGE without notice.

PRICES INCLUDE POSTAGE at single and dozen rates except where noted. At 100 and 1000 rates buyer pays charges. 6 bulbs sold at dozen rates, 25 at 100 rates, 250 at 1000 rates.

ON LARGE ORDERS. We will quote special prices. Write us.

SCHOOL GARDENS. To encourage love of flowers and to aid in knowledge of care and growth of plants we will furnish both Bulbs and Seeds at very low rates.

Principals and teachers are requested to write us outlining their needs.

REMITTANCES SHOULD ACCOMPANY ORDERS. C. O. D. shipments are not desired by us. Money orders are the best form of remittance, but stamps may be sent for small amounts.

SEND US NAMES and ADDRESSES of your friends when sending your order and we will send you a small collection of Flower Seeds.

SUBSTITUTION. We endeavor to fill all orders exactly as received, but it sometimes happens that some varieties of Named Hyacinths and other bulbs become exhausted, in which case we will, unless otherwise instructed, send something as near like it as possible.

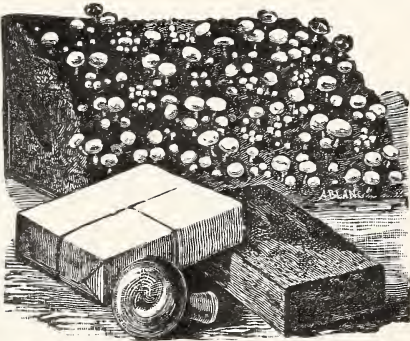

INFORMATION FREE. Our 45 years active experience in the Seed Business in all its branches means that we know many things. We shall be always pleased to give information to customers on any subject pertaining to Seeds and Crops, such as best varieties, when, what and how to sow, culture and care of all crops, besides remedies for plant diseases, insect pests, fertilization and other matters, so far as in our power.

We invite personal relations and questions and extend you a cordial invitation to visit our Modern Store and Salesrooms, 228-230-232 E. 4th St., Cincinnati, Ohio.

We, the J. Chas. McCullough Seed Co., give no warranty, express or implied, as to description, quality, productiveness or any other matter of any seeds, bulbs, or plants we send out, and we will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned and the amount paid will be refunded. If they are kept it will be taken as proof that they are satisfactory.

Mushroom Spawn

One pound will spawn about ten feet square.

Mushroom Spawn

In preparing a mushroom bed, take three parts fresh stable manure, free from straw, and one part of good pasture soil. Mix thoroughly together and let it stand until the heat has sunk to about 90 degrees. Make the bed from this mixture about four feet wide, eight inches deep, and any desired length. As soon as the temperature of the bed is about 70 or 80 degrees, the spawn may be inserted in pieces about the size of a walnut, and six inches apart each way. When the spawn is diffused through the whole bed, which will be in about ten days from planting, cover with two inches of fine loam and press down firmly. Over this place a layer of straw about four inches thick. Do not water unless the surface gets extremely dry, and then only with water at a temperature of 80 degrees. When gathering the crop, twist them off at the roots and do not use a knife. Cover the hole with soil to keep insects away from the root. Mushrooms can be grown in a great variety of situations; under the benches in a green house, a dark room, cellar, stable or elsewhere.

PURE CULTURE SPAWN—Prepared fresh of strong vitality and producing largest and best crop. lb. 25c; 10 lbs., 20c. per lb.

English Mill Track Spawn—(in bricks). 15c lb. (mail 25c lb.), 10 lbs. \$1.00.

Treatise on Mushroom Culture—10c each, postpaid.

HYACINTHS

Hyacinths are offered in four classes, viz:—

FIRST SIZE NAMED the most select exhibition Hyacinths producing very large spikes and the best for pots or glasses.

SECOND SIZE NAMED not quite so large but suitable for pots and the best for bedding, as there is more uniformity in height and more pleasing effects in color schemes.

UNNAMED or MIXED—For pots or bedding, made up of miscellaneous varieties.

MINIATURE, for planting in bulb pans or trays in masses for decorative use in house or cutting.

GROWING IN POTS—Use Select Named Sorts (single Varieties are best), one bulb to a four or five inch pot, three to a seven inch pot. Window boxes having good drainage can be used, placing the bulbs about 3 inches apart. Use any good, rich garden soil, or even Spagnam moss with a little sheep manure will do. Plant any time from September to December, but early planting is best. In potting, the top of the bulb should be even with the top of the soil and the soil pressed firmly around the bulb but not packed underneath, as it restricts root growth. Then water thoroughly, setting away in a dark, cool place for six to eight weeks, watering occasionally until the roots have grown. Then bring to a warm room as many as desired to bloom at a time.

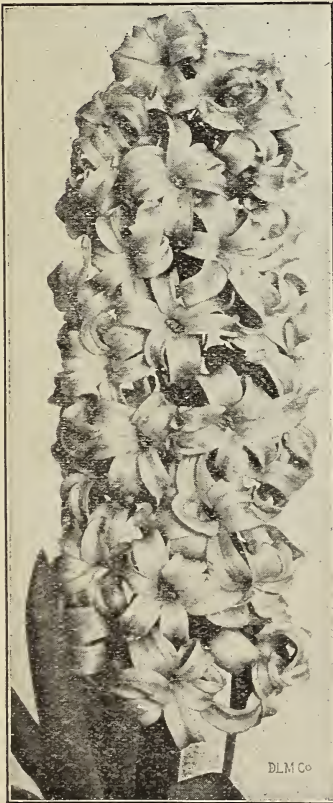

IN GLASSES—Use Select Single Varieties only, placing the bulb so that the base only is immersed in water, and fill as it evaporates. Place in a dark, cool place until the roots have almost reached the bottom of the glass. Change the water about every two weeks, withdrawing the roots and rinsing them off well. When brought into the room for flowering, give as much fresh air as possible but do not put in a draught. When the bulbs are in flower keeping out of direct sunlight will make them last longer.

OUT OF DOORS—Hyacinths will succeed in any good garden soil, but best if rich and light, hence cow manure and sand added to heavy soils are beneficial. They can be planted from October until the ground freezes up, but moderately early planting is best. Have the beds or borders well spaded, setting the bulbs five or six inches deep and the same distance apart. In covering do not press the soil too firmly around the bulb. On approach of winter a top dressing of leaf mould or well rotted manure is beneficial.

Color schemes for beds are best obtained by using Second Size Named Hyacinths rather than Mixed, as more regularity of height, bloom and shadings are obtained. However, our Choice Mixed or Unnamed Hyacinths are fine quality and will give excellent results.

Select Named Hyacinths 1st. Size SINGLE VARIETIES.

The best for pots, glasses, or in beds where large fine exhibition spikes are desired. Make much fuller, larger and more symmetrical spikes than the Double Hyacinths. Prices include postage at single and dozen rates.

Spike of Single Hyacinth.

	Each	Doz.
SINGLE RED AND ROSE.		
BARON VON THUYLL —Pale rose, small bells, very early.	\$.010	\$1.00

EARLY ROMAN HYACINTHS.

Exclusively for Forcing.

These are extensively used by florists for forcing, which may be done at a temperature of 60 degrees. The white variety flowers a fortnight to three weeks in advance of the Holland Hyacinths. The flowers are pure white and very fragrant and each bulb will throw up from three to four spikes. For forcing three or four bulbs are generally planted in a suitable pot in good soil as recommended in other varieties.

TULIPS

For gorgeous and showy colors the Tulip is unsurpassed. Beds of Tulips in contrasting or blended shades bursting into a mass of gorgeous bloom after a dreary Winter, are of indescribable beauty and attractiveness. In pots they force easily, requiring same treatment as for Hyacinths in pots and produce best effects when 6 to 12 are planted in a pan or box together. For beds treat as for Hyacinths, setting the bulbs four to five inches apart and three to four inches deep. If the soil is light plant deep, if stiff plant shallow.

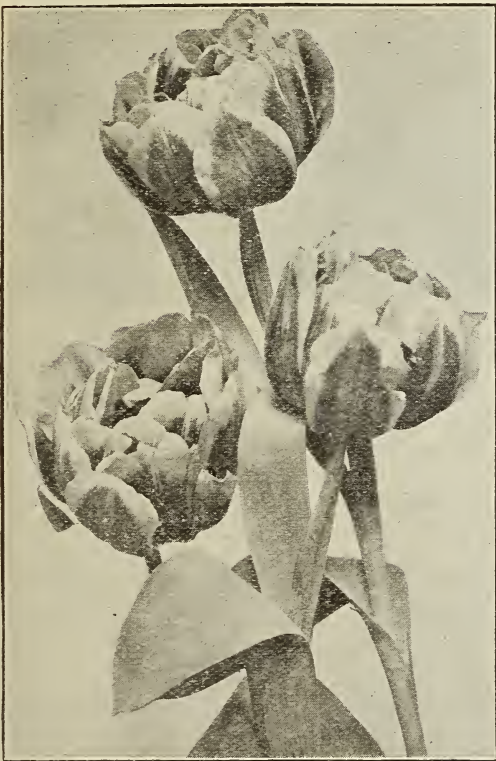

The letters, a, b, c, following the varieties, indicate their earliness of bloom, the a's flower together, and are the earliest, b next, etc. The figures indicate the height attained in inches, to aid in arranging flower beds.

SINGLE EARLY TULIPS. NAMED SORTS.

GRETCHEN, Light pink. Each, 3c; doz. 25c; 100, \$1.25.
 Finest Mixed, doz. 30c; per 100, \$1.50.

Narcissus

COMMONLY CALLED JONQUILS, DAFFODILS, ETC.

Among the most popular of all bulbs and wonderfully attractive in borders and among shrubbery as well as delightful for house decoration or wearing.

CULTURE—Among hardy varieties Emperor, Empress, Trumpet Major and Von Sion are excellent for growing in pots or trays, planting 12 or more together and treating like "Hyacinths in Pots." Out of doors they are planted about 3 inches deep in borders or clumps.

The double and single sorts are perfectly hardy and need not be disturbed oftener than once in three or four years, and not then unless they have become too much crowded by offsets. Plant in the Fall in good garden soil, about three or four inches deep and three to six inches apart.

HARDY GARDEN NARCISSUS.

Single Varieties

	Per Each	Per doz.	Per 100
BARRI CONSPICUUS. Yellow petals, very fine scarlet cup, extra for early forcing.....	02	20	\$1.00

GRAND SOLIEL D'OR. Rich yellow with orange cup.....	05	50	2.50

CHINESE SACRED NARCISSUS.

ORIENTAL NARCISSUS, SACRED LILY, JOSS FLOWER, ETC.

They grow well in pots of soil, but most popular way of blooming them is the Chinese method as follows:

Put about one inch of sand in a shallow bowl or some similar vessel, about four inches deep; place the bulb on this, and pack it firmly with small pebbles or pieces of rock; then fill it with water to the top of the pebbles and place in a warm sunny window. The bulb will at once commence a rapid growth and bloom in five or six weeks. Add fresh water as often as necessary.

For a window ornament they are unexcelled and lend to an interior a cheerful aspect when all outside is frost-bound and dreary. The effect is heightened when several are put in a large dish. They can be planted at different times, and have a succession of flowers all Winter.

Flowers often double and single from the same bulb.
Extra Large Bulbs, each 15 cents. Two for 25 cents.
 Per dozen, \$1.25.
By Mail, Postage Extra, 15 cents per dozen.

Crocus

One of the earliest blooming bulbs and very pretty and effective when planted in the turf or in set beds.

Crocus should be planted in October or November. Set the bulbs two inches apart and cover with not more than two inches of earth. The named varieties make large blooms and are admirably suited for cultivation in pots, shallow bowls, window boxes, etc., and when so grown the roots should be planted closely together to produce a good effect.

NAMED CROCUS.

Price, all Varieties, doz. 15c; per 100, 75c.
 Baron von Bruno—Dark blue.
 Cloth of Gold—Yellow and brown.
 Cloth of Silver—White and lilac.
 Mont Blanc—Pure White.
 Sir Walter Scott—White, blue striped.
 Mammoth Yellow—Large bulbs.

Lilies

THE BERMUDA EASTER LILY.

(Lilium Harrisii.)

The most popular and easiest of all Lillies for growing in pots
CULTURE.—Plant in a 6 or 7 inch pot in good, loamy, rich soil setting the bulb 2 inches below the surface. Treat as for Hyacinths in pots.

Extra Large Bulbs, 20c each; \$2.00 per doz.
 Large Bulbs 15c each; \$1.50 per doz.

LILIUM CANDIDUM.

(Madonna Lily.)

A very early blooming variety of snowy whiteness, which is one of the most popular for garden and can be readily forced.

	Each	Doz.
Extra Large Bulbs.....	.15	\$1.50
Large Bulbs—.....	10	1.00

LILIUM AURATUM.

Ready About November 1st.

"The Golden Rayed Lily of Japan." The flowers are pure white thickly studded with crimson spots while through the center of each petal runs a clear golden band. May be grown in pots same as Lilium Harrisii.

	Each	Per doz.
Extra Strong Bulbs.....	20	\$2.00
Large Bulbs.....	15	1.50

LILIUM SPECIOSUM.

Ready About November 1st.

"Japan Lily." The varieties of this class are magnificent border plants and excellent for pot culture. All are perfectly hardy and are among the most satisfactory Lilies to grow.

ROSEUM, white, suffused and spotted with rose ..	15	\$1.50
RUBRUM, white, suffused and spotted crimson....	15	1.50

BERMUDA EASTER LILY.

CALLA LILIES

An old favorite, and of easy culture, the only requisite for successful culture are rich soil and plenty of water when growing. By allowing them to rest through the Summer an abundance of bloom may be had the next winter. White Calla or Lily of the Nile. This old favorite is too well known to require any description.

Extra Large Bulbs.....	20	\$2.00
Large Bulbs.....	15	1.50

Miscellaneous Bulbs for Fall Planting

CULTURE IN POTS—Where bulbs are small, plant 6 to 12 in a 5 or 6 inch pot. Water and place them awhile in the dark. Large bulbs one or more can be planted together.

OUT OF DOORS—Small bulbs should be set 2 or 3 inches deep, large bulbs 3 to 5 inches deep. The ground should be well spaded before planting and if not rich, work in well rotted manure.

ALLIUM NEAPOLITANUM.

An excellent variety for winter flowering, now extensively forced by florists for cut flowers, being of pure white with green stamens, borne in large loose umbels. Height 15 to 18 inches. 3c each; 25c per dozen; \$1.25 per 100.

ANEMONES (Wind Flowers.)

The tubers should be planted about two inches deep. Before cold weather sets in cover with a frame or a good bed of leaves and light manure, and lay boards over to keep out the frost. For pot culture, use light, rich soil, and give good drainage; cool tubers in a five-inch pot is enough; water and set away in a cool place until the roots are well started, then bring to the light.

	Each	Doz.	Per 100
Double Mixed, extremely handsome double flowers.....	03	30	\$2.00
Single Mixed, in great variety.....	03	15	1.00

CHIONODOXA (Glory of the Snow.)

Hardy, early flowering bulbs, with spikes of beautiful blue flowers with pure white center. The flowers and spikes are more than twice the size of the Scilla Siberica, and require the same culture.

Lucilae, blue, white eye. 3c each; 25c doz.; \$1.25 per 100.

COLCHICUM AUTUMNALE. (Air Plant.)

Handsome, hardy plant, very showy and effective in clumps producing fine clusters of very large, beautiful flowers in September or October, followed by the foliage next Spring.

	Each	Per doz.
Finest Mixed.....	10	.75

CYCLAMEN PERSICUM GIGANTEUM.

One of the most beautiful and best adapted plants for Winter blooming in the house or greenhouse; grows readily and flowers freely for a long period; the foliage being handsomely mottled, is very ornamental. The bulbs should be planted in a compost of loam, leaf-mould and sand, about half covered, leaving the crown or top of the bulb clear; give a little water and keep in the shade until the leaves are well grown. Then, with plenty of light, air and temperature of about 60 degrees, they may be grown to perfection. Good drainage is essential. After flowering the pots should be plunged in a shady, sheltered place until October when they should be repotted.

Finest Mixed Varieties, postpaid, 25c each; \$2.00 doz.

DIELYTRA, OR "BLEEDING HEART."

Ready in October.

One of the most ornamental of hardy spring flowering plants with elegant green foliage and long drooping racemes of heart-shaped pink and white flowers. This is deemed one of the finest of all hardy garden plants.

Large flowering roots. 15c each; \$1.50 per dozen.
If sent by mail, 20c each.

FREESIA

One of the most popular and charming bulbs for pot culture, flowering in the Winter and Spring in the conservatory or window garden. Eight to twelve bulbs should be planted in a six-inch bulb-pan and covered one inch. They force readily, and can be had in bloom by Christmas if desired. The flowers are produced six to eight on stems about nine inches high, and are particularly useful for cutting, remaining in good condition, kept in water, for two weeks.

PURITY—A new variety, magnificent, showy, glistening white. Very large on long stems. Large Bulbs, each, 5c; per doz. 30c; per 100, \$2.00.

REFRACTA ALBA.—Pure white with yellow blotched throat Very fragrant.

	Per doz.	Per 100
Large Bulbs.....	15	\$1.00
Mammoth Bulbs.....	20	1.25

IRIS.

(FLEUR DE LIS.)

The Iris or flowering Flag is well known and universally popular. They bloom from May to July.

SPANISH IRIS. (Iris Hispanica.)

These have appropriately been called the "Orchids of the Hardy Flower Garden." They are of the simplest culture, succeeding in almost any soil or position. The bulbs should be planted two to three inches deep and six inches apart, early enough in the autumn to allow them to make some growth before hard frost comes.

Belle Chinoise, golden yellow, the earliest of all.

Blanchard, white tinted lilac, very long stem.

King of the Blues, (Count of Nassau) rich, dark blue, one of the best.

The above varieties 3c each; 15c doz.; \$1.00 per 100.

FINEST MIXED. All colors. 3c each; 15c per doz.; 75c per 100

ENGLISH IRIS. (Iris Anglica.)

Handsome and of rich colors. The flowers are larger than the Spanish Iris and about 2 weeks later. Perfectly hardy and excellent for forcing.

Alba Grandissima—Large flowering white.

King of the Blues—Dark blue.

Blue Celeste—Sky blue.

Penelope—White and violet.

Named Varieties, above, each, 5c; doz. 50c; 100, \$2.50.

Finest Mixed Varieties, doz. 25c; per 100, \$1.75.

GERMAN IRIS (Iris Germanica).

(True Fleur-de-Lis).

Choice Mixed, 15c each; \$1.50 per doz. \$10.00 per 100.

JAPANESE IRIS (Iris Kaempferi.)

These flowers often measure ten to twelve inches in diameter, and are of the most varied and beautiful colors. They require rich, moist soil. Our collection is a direct importation from Japan and is remarkably fine. Named varieties; strong clumps.

Each, 30c; By mail, 35c each; per doz. \$3.00.

Choice Mixed Sorts. Each 25c; doz. \$2.50; per 100, \$15.00.

Lily of the Valley

(Ready in November)

Modest, sweet-scented favorites which succeed in shady or moist situations, increasing in numbers from year to year. They should be planted in a permanent place where they will not have to be disturbed.

FOR FORCING, the Pips are planted in trays thickly, then well watered and kept out in the cold. These trays are then brought into a warm greenhouse as many as desired for flowering at a time.

FOR OUT OF DOORS—Clumps or pips may be used, the pips producing the best flowers the first year, but the clumps make a larger number of flowers at less cost.

BERLIN PIPS—Selected 30c per Doz. \$1.75 per 100.

STRONG CLUMPS—30c each. \$3.00 per Doz.

ORNITHOGALUM ARABICUM.

Star of Bethlehem.

Flowers, pure white, with black center, borne in clusters on stalks from 15 to 18 inches high; perfectly hardy; excellent for the open border. Also largely grown for greenhouse and window decoration. Each, 4 cents; doz. 40 cents; 100, \$2.00.

OXALIS.

A pretty variety of plants, adapted for hanging pots, vases and baskets; they make admirable window plants, as they flower freely. Water frequently while growing.

	Each	Per doz.
ALBA, pure white, free flowering, very pretty	03	.20
BOWEN, bright crimson	03	.20
BUTTERCUP, large, free flowering sort of a bright buttercup, yellow; plant robust and profuse bloomer	03	20
CERNUA, fine yellow, one of the best	03	20
ROSEA, Rose	03	20
CHOICEST MIXED, all colors	02	15

OXALIS IN HANGING POT

LILY OF THE VALLEY PEONIES

Well known and very popular herbaceous Perennials, bearing large, double flowers in all shades from purest white to deepest crimson. The varieties we offer are among the best of the Named Sorts and our Mixed Varieties embrace a vast class of all sorts and range of colors.

NAMED SORTS, White, pink, light rose, dark pink, light crimson, deep red, etc. Price, each 25c; dozen, \$2.50.

Mixed Varieties, each 15c; per dozen, \$1.50.

RANUNCULUS.

One of the most attractive of dwarf flowers, excelling in beauty of form and bright colors. Fine for growing in pots in the winter, or should be planted early in the spring in rich soil, strongly manured the year before planting.

	Per doz.	Per 100
French	10	\$.75
Persian	15	1.00
Turban	15	1.00

SCILLA.

Very early flowering bulbs, doing well in ordinary soil, producing fine, graceful spikes of bell-shaped flowers. Very showy and attractive as pot plants, and require about the same treatment as Hyacinths.

SIBERICA, flowers of richest blue, dwarf and hardy, excellent planted with Crocus and Snowdrops. Each, 3 cents; per doz. 25 cents; per 100, \$1.25.

SIBERICA ALBA. Pure white, very fine. 25c doz.; \$1.25 per 100.

SNOWDROPS.

They should be planted in beds in the border, or in clumps in the open lawn, and will endure any amount of hard treatment; still no flower better repays care and attention. Plant the bulbs in September or October—the earlier the better—to enable them to become well established before freezing weather. Set about two or three inches deep and one inch apart, in clumps or triple rows; if planted singly they are not conspicuous.

	Per doz.	Per 100
Double	25	\$1.50
Single	15	.75
Elwesii	15	1.00

SPARAXIS.

One of the most graceful and beautiful half-hardy bulbs, with large, handsome flowers of the brightest colors and shades and are fine for growing in pots. They are closely allied to the Ixia, and require the same treatment.

FINEST MIXED, 3c each; 25c per doz.; \$1.00 per 100.

SPIREA OR ASTILBE.

Ready in November.

JAPONICA. This beautiful plant produces in abundance dense sprays of small white flowers on neat, erect stems. Its beautiful fern-like foliage, combined with its graceful flower heads, makes it one of the best winter forcing plants for windows or greenhouse. It is also a beautiful object in the garden, being perfectly hardy. 15c each; \$1.50 per doz.; \$7.50 per 100.

FLOWER SEEDS

FOR FALL AND WINTER SOWING.

The following list of Flower Seeds has been carefully revised, and contains only the leading varieties of acknowledged merit, carefully selected and thoroughly tested. Annuals grow from the seeds, bloom and perish in one season; biennials generally bloom the first and second years and then die; perennials bloom the second year and every year thereafter, some perishing after three or four years, others continue indefinitely. Some perennials, if started early, bloom the first year.

ALL FLOWER SEEDS SENT FREE BY MAIL ON RECEIPT OF PRICE.

PLANT THE SEEDS OF HARDY PERENNIALS THIS FALL, AND BE REWARDED BY AN ABUNDANCE OF FLOWERS FOR YEARS.

Ornamental Flowering Shrubs

ALTHEA (Rose of Sharon). The Altheas are among the most valuable of our hardy Shrubs on account of their late season of blooming, which is from August to October a period during which but few shrubs or trees are in flower. They are also extensively used as hedge plants, for which they are admirably adapted.			
	Each	Doz.	
" BOULE-DE-FEU , deep fiery red.....	50	\$5.00

WE ARE PREPARED TO FURNISH AT SPECIAL PRICE, LARGE SPECIMEN PLANTS OF SEVERAL VARIETIES OF ORNAMENTAL FLOWERING SHRUBS AND TREES THAT WILL PRODUCE AN IMMEDIATE EFFECT WHEN PROPERLY PLANTED.

Hedge Plants

ALTHEA—See page 11

BERBERIS—See page 11.

OSAGE ORANGE,—This is still used extensively on farms and along highways. It makes a strong defensive hedge that will turn cattle; should be planted in double rows, six to nine inches apart in a row. Strong two-year-old plants 60c per 100; \$5.00 per 1,000.

PRIVET AMURENSE (Amour River). A hardy variety with large, oblong, glossy green foliage. Extra heavy plants \$1.50 per doz.; \$10.00 per 100

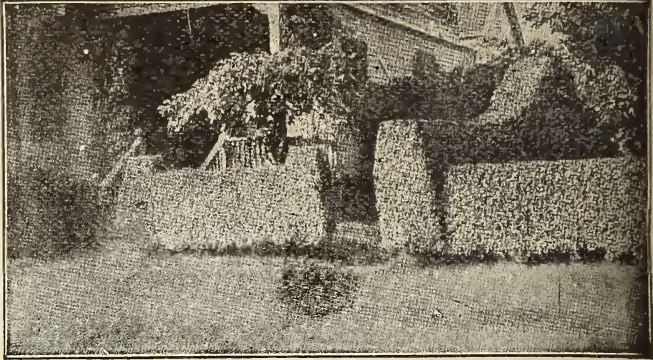

PRIVET, CALIFORNIA (*Ligustrum Ovalifolium*).—Of all ornamental hedge plants, this is the most popular, and more of it is planted than all others combined. Its foliage is a rich, dark green, and is nearly ever-green, remaining on the plant until mid-winter. It is of free growth and succeeds under the most adverse conditions, such as under dense shade of trees, where other plants would not exist. The most advantageous manner of planting is in double rows, the two rows being about eight inches apart. The plants should be set 12 to 15 inches apart in the row, alternating the plants. In order to secure a dense hedge from the base up, the plants should be severely pruned the first two seasons.

2 Year Old Plants, 75c doz.; \$4.00 per 100.
3 Year Old Plants, \$1.00 doz.; \$6.00 per 100.

Extra Large Bushy Plants, \$1.50 per doz.; \$10.00 per 100.

SPIREA VAN HOUTTEI—One of the most beautiful of all hedge plants. One mass of white when in bloom, and still beautiful in form and foliage, until frost removes the leaves.

18 to 24 inches, \$1.50 dozen; \$10.00 per 100.
2 to 3 feet, \$2.00 dozen; \$15.00 per 100.

HARDY CLIMBING PLANTS.

AKEBIA QUINATA. A beautiful Japanese climber, unique both in foliage and flowers 35c each; \$4.00 per doz.

AMPELOPSIS VEITCHII (Japan Creeper or Boston Ivy). The leaves are small on young plants, which at first are of an olive green color, changing to red in autumn. As the plant acquires age the leaves increase in size. Without question one of the very best climbing plants for covering brick or stone walls that can be grown 25c each; \$2.50 doz.; by mail, 30c each

ARISTOLOCHIA SIPHO (Dutchman's Pipe). A magnificent hardy vine of rapid growth, with very large heart-shaped leaves, and brownish flowers, resembling a pipe. 50c each; \$5.00 doz.; by mail, 60c each.

BIGONIA RADICANS (Trumpet Vine).—An old-time favorite. Flowers trumpet-shaped, scarlet. A rapid grower. Blooms almost continuously through the summer. 25c each; \$2.50 doz.; by mail, 30c each.

CELASTRUS SCANDENS (Climbing Bitter Sweet).—Of rapid growth, light green foliage and yellow flowers during June, which are followed in the autumn with orange fruit. 25c each; \$2.50 per dozen.

CLEMATIS PANICULATA,—glossy green foliage and a mass of fragrant white flowers in August and September. One of our best hardy vines 30 cts. each; \$3.00 per doz.

HONEYSUCKLE—Aurea Reticulata. Foliage beautifully variegated yellow and green, with yellowish white flowers.

“ Monthly Fragrant or Dutch. Blooms all summer.

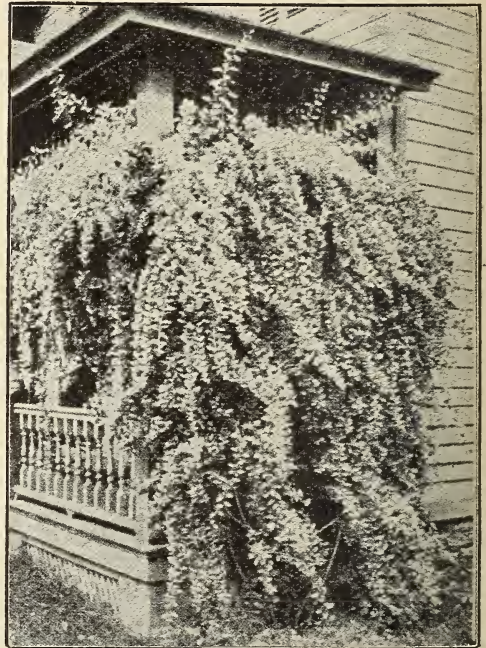

“ Common Woodbine—A strong, rapid grower; flowers very showy; red outside, buff within.

“ Halleana—Nearly evergreen flowers pure white, produced abundantly fragrant like a jessamine.

“ Scarlet Trumpet—A rapid grower, and produces scarlet inodorous flowers all summer.

Honeysuckle Plants, 25c each; \$2.50 dozen.
By mail, 30c each.

VITIS HETEROPHYLLA VARIEGATA—A beautiful climber with dark green foliage, variegated with white and pink; during late summer and fall the plant is covered with small blue berries. Useful for trailing over rocks or for a low trellis. 30c each; \$3.00 per doz.

WISTARIA SINENSIS—The favorite variety, producing thousands of pendulous clusters of delicate violet blue blossoms, richly perfumed. 50c each; \$5.00 per doz.

WISTARIA SINENSIS ALBA.—Of similar habit to Sinensis, with pure white flowers 50c each; \$5.00 per doz.

Wistarias can only be sent by Express or Freight.

ORNAMENTAL GRASSES.

ERIANTHUS RAVENNAE (Plume Grass)—grows six to eight feet high and produces handsome plumes in fall.

EULALIA GRACILLIMA (Japan Rush)—The most beautiful of all the Eulalias, with narrow, graceful foliage, entirely green without variegation, except that the mid-rib is of a silver sheen. Perfectly hardy, very valuable.

EULALIA JAPONICA VARIEGATA—Leaves striped white and green longitudinally.

EULALIA ZEBRINA (Zebra Grass)—A peculiar variegated grass, growing six feet high. The variegation is unlike that of any other plant, being across the leaf in regular bands, dark green and light yellow alternating.

The dried blooms of all the Eulalias make beautiful winter ornaments.
25c each; \$2.50 per dozen.

Shade and Ornamental Trees

FOR LAWN, STREET AND FOREST PLANTING.

We enumerate below the principal varieties of Shade and Ornamental trees, etc., all Strictly Selected Stocks, and while our aim is to supply First Quality only, still, on account of our ample stocks, we are in position to meet honorable competition on any size or quality; therefore it will be to your advantage to submit an estimate of your wants.

WE DO NOT GUARANTEE OR REPLACE TREES OR SHRUBS AT PRICES QUOTED.

CASH MUST ACCOMPANY ALL ORDERS.

Fruit Trees

Select thrifty young trees in preference to old or very large ones; the roots are more tender and fibrous and they bear transplanting better and are more apt to live; they can also be more easily trimmed and shaped to any desired form, and in the course of a few years will usually outstrip the older ones in growth. If not prepared to plant when your stock arrives, "heel in" by digging a trench deep enough to admit all the roots and setting the tree therein, carefully pack the earth about the roots, taking up when required. Never leave the roots exposed to the sun and air.

SENT BY EXPRESS OR FREIGHT AT EXPENSE OF PURCHASER.

APPLES.

STANDARD.

We can furnish all varieties usually catalogued, but the following list comprises the most desirable sorts:

Three years old, 5 to 7 feet high. Price 30c each; \$3.00 per dozen.

BLACKBERRIES.

50 cents per Dozen. \$3.50 per 100 except where noted.

- ANCIENT BRITON—Large fruit, stems loaded with good sized berries of fine quality; vigorous grower, hardy.
- EARLY HARVEST—Very prolific, choice variety.
- BLOWER'S (new). Large, luscious berries, rich in quality and quantity. 75c per doz.; \$3.00 per 100
- ELDORADO—Large fruit, borne in clusters and ripen well together, fine quality, good keeper.
- KENOYER (new).—Early, berry large of good color, heavy yielder and good shipper. 10c each; \$1.00 doz.
- MERSEREAU (new)—Extremely hardy, berries sweet, rich, melting and luscious without core. Good keeper and shipper. 75c per doz.; \$3.00 per 100
- SNYDER—Medium size, sweet and juicy; extremely hardy and very productive.

DEWBERRY.

- LUCRETIA—One of the low-growing, trailing blackberries. In earliness, size and quality it equals any of the tall-growing sorts. It has proved highly satisfactory wherever tried, and many say it is the best of all the blackberry family. 50 per doz.; \$3.00 per 100-

CURRENTS.

12 cents Each; \$1.25 per Dozen.

- BLACK CHAMPION—Large bunch and berry, excellent quality, strong grower, very productive.
- CHERRY—Fruit large, bunch small, deep red, acid.
- FAY'S PROLIFIC—Extra large stems and berries, color rich red, fine quality, very productive.
- POMONA—Bright red, extra fine quality and enormously productive; strong, vigorous grower.
- RED DUTCH—An old favorite variety with large red berries.
- WHITE GRAPE—Large, yellowish white, sweet, excellent quality and valuable for the table.

GOOSEBERRIES.

- DOWNING—Very large and fine quality. \$2.00 doz.
- HOUGHTON—Medium size, very productive. 2.00 doz.
- SMITH'S IMPROVED—Large, thin skin, best for table use. 2.00 doz.
- INDUSTRY—English sort, of very large size, hardy. 2.50 doz.

RASPBERRIES.

50 cents per Dozen; \$3.00 per 100.

- BRANDYWINE—Large size, light crimson color, good quality and firm, vigorous and productive. One of the best, well-tested, large early berries for the North.
- CUMBERLAND—The largest black cap; a healthy, vigorous grower; very productive and of finest quality.
- CUTHBERT—Large, firm, deep rich crimson, of excellent quality, tall, strong, vigorous, perfectly hardy and very productive. Ripens medium to late.
- GREGG—A large black variety, fruit firm, of excellent quality and a good shipper.

STRAWBERRIES.

All varieties offered in this list have perfect or bi-sexual blossoms, except those marked (P), which are destitute of stamens, and are termed pistillate or imperfect flowering varieties and must be planted near some perfect-flowering sort or they will produce little or no fruit.

Dip the plants in water as soon as received, and bury the roots in moist, shady ground till you are ready to set them out. Neglect for an hour or so is often fatal.

25c per dozen; \$1.00 per 100; \$7.50 per 1000.

- BISMARCK—Very large and productive, bright scarlet, fine quality, good shipper, requires rich soil.
- BUBACH, No. 5 (P)—Very large and productive, bright scarlet; a fine market variety; early to medium.
- CLYDE—Large, light scarlet color; conical shape; very productive, good quality.
- CUMBERLAND—Large light red; conical shape; handsome and showy; plant vigorous and productive.
- ENHANCE—Large, bright crimson, firm, very prolific.
- GANDY—Large firm berries, excellent long-keeping and shipping variety.
- GLEN MARY—Large, bright red; sweet, rich, good flavor.
- JESSIE—Large, handsome berry, of good quality, vigorous grower; good market sort.
- SENATOR DUNLAP—Large, bright red; firm, splendid keeper and shipper; excellent quality; one of the best.
- WARFIELD—Early and productive; berries large and firm.

ASPARAGUS ROOTS.

May be either planted in fall or spring. Dig up your ground deep, put plenty of well rotted manure thoroughly mixed in the soil, throw out a bed about four or five inches deep, lay the plants in by spreading the roots out well and scatter the dirt over the plants about four inches, or the depth of the ground thrown out, firm the dirt well around the plants by patting it down well with spade or shovel, then top dress the ground with about three inches of well rotted manure and scatter salt enough over the top of this to make the ground white enough to track a rabbit. The second year after planting you will be able to harvest enough asparagus for a good-sized family from a bed of about 200 plants. You can plant about 200 plants in a bed three feet wide and fifteen feet long. You should keep the crown of the asparagus cut regularly so it will produce from three and one-half to seven pounds of asparagus, and when planted in small beds, where it can be well mulched and cared for, will even do much better than this. It is necessary to start with good roots. It depends much more on the care taken of the plants and the plant food given them than it does the variety planted. Salt should be put on at the end of every season, in the spring of the year.

ASPARAGUS ROOTS—Two year-old roots.

	Per 100	Per 500	Per 1,000
Barr's Mammoth	\$1.00	\$4.25	\$7.00
Columbia Mammoth White	1.00	4.25	7.00
Conover's Colossal	.80	3.75	6.00
Palmetto	1.00	4.25	7.00

DISTANCES FOR PLANTING. Grapes, rows 10 to 16 feet apart, 7 to 10 feet in rows. Blackberries, 6 to 7 feet apart, 3 to 5 feet in rows. Currents, 4 feet apart each way. Gooseberries, 4 feet apart each way. Raspberries, rows 5 feet apart, 3 feet in rows. Strawberries, for field culture, rows 3 to 3½ feet apart, 1 to 1½ feet in rows; for Garden Culture, plant in beds 4 feet wide, 3 rows in each bed, plants 1 foot apart in rows.

Vegetable Seeds for Fall Sowing

The list given below comprises only those varieties which are suitable for sowing outside during the Fall, or for sowing under glass in frames or greenhouses.

OUR ANNUAL CATALOGUE gives full descriptions of all Vegetables Seeds and will be mailed free on request. Descriptions here are necessarily short and the list of varieties comprises only the best and most popular sorts.

All varieties are 5c per package except where noted.

FARMOGERM.

A high bred nitro-gathering bacteria in sealed bottles ready to use by adding water according to directions. Prepared for the following crops, Clovers (Red, Mammoth, and Alsike) Alfalfa, Beans, Peas, Vetches, and Cow Peas.

Price. Acre size bottles \$2.00. 5 acre size \$6.00.

Small trial bottles (about ¼ acre) 50c.

State for what crop when ordering.

INSECTICIDES

Lime Sulphur Solution—The best and most effective remedy for San Jose Scale and other sucking insects. Endorsed by The Department of Agriculture and Experimental stations everywhere. It is also a preventative and cure for various fungus diseases, rust, etc. Trees or Shrubs affected with sca should be sprayed twice, once in the winter whi the trees are dormant and again later in the Spring before the buds burst. Use 1 gallon Lime Sulphur to 10 gallons of water for winter spray. As a Summer spray, 1 gal. of Lime Sulphur to 30 gallons of water. Prices—Quart, 20c.; ½ gal. 30c.; 1 gal. 45c. 5 gal. \$1.75; ½bbl. (25 gal.) \$5.00; barrel (50 gallons) \$8.00.

Scalecide—(Pratts) A preparation of micible oils for San Jose and other scale and some other insects. It mixes with cold water and stays mixed but does not form an emulsion. It is not as disagreeable to use as lime Sulphur. As a Winter spray use a solution 1 part Scalecide to 15 to 20 parts of water when trees are dormant. For Summer spray, 1 part Scalecide to 25 to 30 parts of water. Prices, 1 gal. \$1.00; 5 gal. \$3.25; 30 gal. \$15.00; barrel (50 gal.) \$25.00.

Lemon Oil Insecticide—One of the best preparations for insects on plants either inside or outside. It readily mixes with water, has a delightful odor, resembling crushed tea leaves. It is very effective on insects, such as green fly, mites, and various scale insects which effect palms, rubber trees, oranges and other house plants. To be diluted with cold water. Full directions on every can. ½ pint, 25c.; pint, 40c.; quart, 65c.; ½ gal. \$1.15; gal. \$2.00.

Hammond's Slug Shot—A dry powder for applying to garden plants, claimed to be non-poisonous. 1 lb. canister 15c.; 5 lb. packages, 35c.

Nicofume Liquid—A highly concentrated extract of Tobacco, which can be used as a spray, or allowed to evaporate in green houses. It is one of the strongest solutions of tobacco made; contains about 40% Nicotine, which if sprayed, is to be diluted 1 part Nicofume to 50 parts of water. Prices, ¼ lb. 60c.; 1 lb. \$2.00; 4 lb. \$7.00; 8 lbs., \$13.50.

Nikoteen—A liquid extract of tobacco, for fumigating or spraying. Effective on Green and Black Fly, Thrip, Mealy Bug, Red Spider, etc. 30% Nicotine. Price 2 oz bottle, 40c; ½ lb., 85c; 1 lb., \$1.50.

Arsenate of Lead—A powerful poison for all biting insects. Does not burn foliage nor easily wash off. Paste Form, use 3 lbs. to 50 gallons of water. Prices, 1 lb. 25c.; 5 lbs. \$1.00; 10 lbs. \$1.50; Dry Form, 1 lb. 30c.

Paris reen—A well-known arsenical poison for Potato Bugs, Tobacco Worms, etc. Can be applied either dry or in solution. If in solution use 1 lb. to 100 or 200 gallons of water. Prices, 1 lb. 30c.; 5 lbs., \$1.25.

Bordeaux Mixture,—For mildew, black rot and all Fungus diseases. Use 1 lb. to about 10 gallons of water. Price per lb. 20c.; 5 lbs. 60c.; 10 lbs., \$1.00; 20 lbs., \$2.00.

Sulpho Tobacco Soap—An effective insecticide for sucking insects on both plants and animals. 3 oz. cake, 10c.

Bug Death—Recommended for all leaf eating insects. Effective and harmless to plants, as it contains no arsenic. Prices, 1 lb. 15c.; 3 lbs., 35c.; 5 lbs., 50 c.

Sulphur—For applying dry in greenhouses or out of doors to prevent mildew. Prices, per lb. 10c.; 3 lbs., 25 c.

Hellebore Powder White—For destruction of Slugs, Worms, Caterpillars, etc. ½ lb., 15c; 1 lb., 25c,

Fish Oil Soap—For destroying insects on plants, trees, vines, etc., for washing down the bark of trees, grape vines, etc. ½ lb. 10c; 1 lb. 15c.; 5 lbs., 60c.; 50 lbs. or over, 10c. lb.

Tobacco Dust—A sure remedy for Green Fly, Aphis, Fleas, Beetles, etc. Preventative for insects in the ground and around the roots. 1 lb. 10c.; 5 lbs., 25c.; 100 lbs., \$2.50.

Tobacco Stems—Used for fumigating plants to kill insects. Invaluable as a mulch for rose beds, lettuce beds, etc., where insects frequently do much injury to roots and foliage. Bale of about 400 lbs., \$5.00.

FERTILIZERS

WIZARD BRAND PULVERIZED SHEEP MANURE.

This is a pure, natural manure and nutritious food for plants. Its effect is immediate. It is the best of all manure for mixing with the soil for greenhouse plants. It makes the richest, safest and quickest liquid manure. Nothing equals it for use on flower beds or for the vegetable garden. Especially valuable for lawns, contains all the constituents for promoting a quick, luxuriant growth, and a rich green color. No raking off required. No seeds of foul weeds in it. It is clean to handle. Absolutely safe to use in any quantity or in any manner.

Directions—For lawn, use at the rate of from 500 to 600 pounds per acre. For pot plants, mix one part of sheep manure to six parts of soil. For use in the vegetable garden, spread over the surface and dig in. Being soluble it readily makes a safe liquid manure.

EXCELSIOR PLANT FOOD.

An Odorless preparation, combining in a concentrated and soluble form every element required in plants and flowers to produce vigorous growth and a profusion of flowers and fruit. Wonderful results are obtained, after one or two applications. It is immediately soluble in water, and available to plant

life from the moment of application. Can be either dissolved in water or applied dry. Small size, 10c.; large size, 20c.; postage 5c. extra.

PERUVIAN GUANO—See last cover page.

Ashes—Hard Wood. Drive away insects and improve the texture of the soil; indispensable for all crops requiring potash, very beneficial for garden and field crops, grass land and lawns. Apply 1 to 2 tons per acre. 100 lbs., \$1.35; barrels, about 200 lbs., \$2.00; 10 barrels, \$17.50.

Pure Bone Meal—This finely pulverized ground bone is excellent for rose culture and lawns. It decomposes rapidly, and is more quickly effective than the coarser grade. It is excellent for mixing with soil for potting. 25 cts. 5 lbs.; 40 cts. 10 lbs.; \$1.00, 35 lbs.; \$1.35, 50 lbs.; \$2.50 per bag of 125 lbs.

Bone Phosphate—For all grain crops, and especially good for spring crops and vegetables owing to its ammonia and potash. This is best adapted for wheat seeded on corn land, also for grass following wheat. 25 cts., 5 lbs.; \$1.75, 100 lbs.; \$2.00, 125 lb. bag; \$13.00, ½ ton; \$25.00 ton.

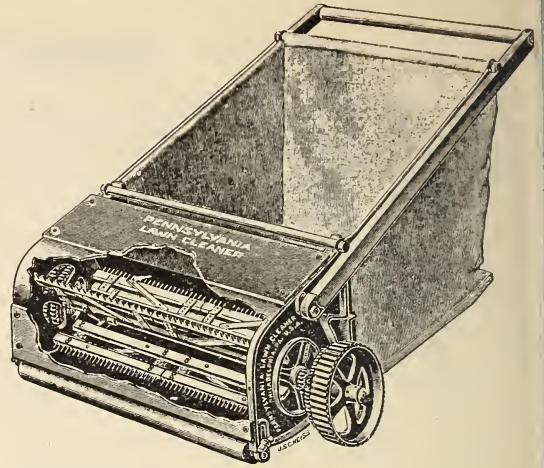

Land Plaster—\$1.40, 200 pound bag; 600 lbs. or more, 60 cts. per 100 lbs.

Miscellaneous.

LAWN CLEANER AND SWEEPER (Pennsylvania)—Cleans lawns of leaves, trash, clippings, etc., faster and better than four men can do it with rakes, etc. It also straightens up the grass and trailing plants upright, so that they can be cut with a mower. Will handle the heaviest fall of leaves easily. The machine is 24 inches wide. Made in a substantial manner, combining lightness with strength and durability. Guaranteed to do satisfactory work. Price, **\$16.00**

DUNHAM LAWN ROLLERS—We carry a complete line of various styles in water weight, cast iron and other styles. Prices and complete catalogue on request.

LAWN MOWERS—Prices in our annual catalogue, free on request.

AMERICAN PLANT TUBS.

An excellent new tub, cheap, neat and durable. Made from 3/4 inch Cypress, with iron handles, 3 iron hoops and 2 coats of green paint.

No. 1.	11 1/2 inches diameter,	11 1/2 inches high.	\$1.00
No. 2.	13 1/2 " "	11 1/4 " "	1.25
No. 3.	14 3/4 " "	14 " "	1.65
No. 4.	16 " "	15 " "	2.00
No. 5.	19 " "	18 " "	3.00
No. 6.	22 " "	19 1/2 " "	4.00

BIRD HOUSES, TRAPS, ETC.

BIRD HOUSES—These houses are constructed of a tinted stucco, which is indestructible and will last a life time. Instructions for placing on each hut. Help protect and multiply our native birds. They will repay in song and chirp, add attractiveness and enliven grounds, besides destroying countless worms, bugs, beetles and grasshoppers which devour vegetation.

PRICE LIST HUTS AND CABINS.

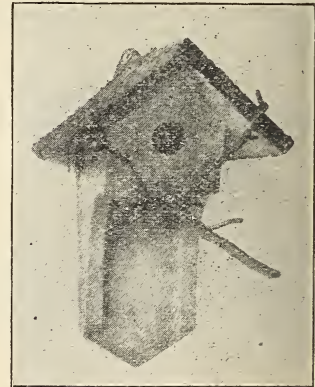

Wren Hutlet	\$1.25 each
Chickadee Hutlet	1.25 "
Bluebird Hut	1.50 "
Titmouse	1.50 "
Bark Hut	2.00 "

The J. Chas. McCullough Seed Co.'s Celebrated "EMERALD" LAWN GRASS SEED

"EMERALD" LAWN GRASS SEED PRODUCES THE FINEST SHORT GREEN VELVETY LASTING TURF 6 TO 8 WEEKS FROM SOWING. UNDOUBTEDLY THE BEST OF ALL LAWN SEED FOR VARIED SOILS AND LOCATIONS BOTH FOR LARGE OR SMALL AREAS.

EMERALD LAWN GRASS SEED is superior to Kentucky Blue Grass or to any of the high priced mixtures for this section. We have for 40 years made a study of lawns and their care and know from practical experience that no matter what the price or what the claims, J. C. McC. Seed Co.'s EMERALD will give better results, last longer and is undoubtedly the best lawn grass to be obtained.

EMERALD LAWN GRASS SEED is recommended for general lawn purposes, Parks, Cemeteries, Fair Greens, Bowling Greens, Tennis Courts (Sod), Athletic Fields, in fact, anywhere where fine velvety turf is wanted that will withstand hard wear.

FALL IS THE BEST TIME FOR SOWING—The high vitality, quick growth and hardiness renders EMERALD Lawn Grass particularly valuable for fall sowing. Sown in September or early in October, a good stand will be obtained before winter. Then the young grass has a good start to withstand the heat and drought of the succeeding summer. Fall sowing eliminates large quantities of weeds which naturally come up when the ground is worked over in the spring.

PREPARATION, QUANTITIES, Etc.—

FOR NEW LAWNS—The ground should be worked deeply, graded, pulverized and raked fine, removing trash, roots, etc. Sow the seed 1 lb. to 300 square feet, 4 to 6 bushels per acre, raking in lightly and roll. On old lawns rake with a sharp tooth rake all bare spots and places where wild grass is thick and sow Emerald Lawn Grass. Roll the lawn when the ground is damp. Prices, $\frac{1}{2}$ lb., 15c.; lb., 25c.; 5 lbs., \$1.00; Bu. (16 lbs.) \$3.00; 10 bushels and over, \$2.85 per bushel.

GRASS SEEDS FOR OTHER PURPOSES.—

SHADY LAWN GRASS SEED—For damp situations. Lb., 35c; 5 lbs., \$1.50; bushel (16 lbs.) \$4.00.

RHODE ISLAND BENT—For putting greens or other places where a soft turf is desired; lb. 35c; 5 lbs. 30c per lb.

CREeping BENT—Similar to above. Same price.

KENTUCKY BLUE GRASS—Best Fancy.—lb. 20c.; 5 lbs., 75c.; 1 bushel (14 lbs.) \$1.60.

WHITE CLOVER—Per lb. 50c.

GOLF LINK MIXTURES—Special prices on application.

FERTILIZERS FOR LAWNS.

WIZARD BRAND PULVERIZED SHEEP MANURE

The best natural manure for lawns, producing a luxuriant growth of grass without the objectionable features of barn-yard manure. It is easily applied, does not have to be raked off, brings no weeds and is not unsightly.

APPLYING—Scatter broadcast at from 400 to 600 lbs. per acre. A still day is best, and in hot or dry weather water after applying. Prices, 6 lbs., 25c.; 10 lbs., 35c.; 50 lbs., \$1.00; 100 lbs., \$1.75; per ton, \$27.50.

GENUINE PERUVIAN GUANO.

The most highly concentrated and best natural fertilizer for lawns, gardens, or flowers. It gives remarkably quick and at the same time lasting results, improving the growth and production of crops, and supplying elements lacking in the soil. For lawns, it is remarkably effective, producing a quick, rich, luxuriant growth of bright green grass.

Use 200 to 400 lbs. per acre. In small areas about 1 lb. to 100 square feet. Prices, $\frac{1}{2}$ lb. 10c.; lb. 15c., 5 lbs., 50c.; 10 lbs., 85c.; 25 lbs., \$1.50; 100 lbs., \$3.25; 200 lbs., \$6.00; ton \$55.00.

Stock and Poultry Supplies
